

WHITE WHIPS LYONS.

Two Championships Are Decided at Dubuque.

KENNEY WINS IN THE SEVENTH.

Lewis is All But Gone and Deliberately Fought to Save Himself a Knockout—Colored Fighter Makes a Game Struggle Against His Experienced Opponent.

Dubuque, Aug. 31.—Tommy White got the decision over Henry Lyons, colored, at the end of a 20-round bout here last night. They fought for the 126-pound championship. Lyons put up a good fight, but began to weaken in the last round and White landed almost at will. Neither man appeared to possess much power. The decision did not meet with the entire approval of the audience, owing to the good showing Lyons made in the first 15 rounds.

In the preliminary bout between Lewis and Kenney for the lightweight championship of the west, Lewis was all but on several times. In the seventh he was going and Kenney was given the decision and the entire purse on Referee Siler's decision that Lewis deliberately fouled to save himself a knockout.

KINGMOND IS FIRST.

Idolita's Stable Companion Takes Down the \$5,000 Purse For 2:24 Trotters.

Dubuque, Ia., Aug. 31.—Kingmond, owned by Frank Jones of Portsmouth, N. H., and the stable companion of Idolita, who Tuesday won the Horse Review futurity, took down the \$5,000 purse offered for 2:24 trotters at the Nutwood Driving park. Cornelia Bella took second money, Dainty Daffo third and Escobar fourth. The first was the fastest of the three heats, 2:11½, and Kingmond took all three heats, hands down.

The second event on the card, the 2:35 pace, took six heats to decide. Dan Patch; owned by C. T. Hancock of Dubuque, finally landed first money, winning the fourth, fifth and sixth heats, while the favorite, Armada Prince, had to content with second money after taking down the second and third heats. Minnie Simmons, who took the first heat, was out of the running after that, being distanced in the second.

The third event, a 2:07 pace, saw the fastest time of the meeting. Four heats were run, Sally Tort taking two, Giles Noyes one and Indiana one. The second heat was run in 2:05½. The time of Giles Noyes in this heat was 2:03½, 1:01½, 1:33½, 2:05½. Darkness caused the postponement of the deciding heat.

Why the Jury Failed to Convict.
GIRARD, Kan., Aug. 31.—The prohibition town of Walnut has just furnished an odd spectacle in the case of a man tried for running an illicit saloon. The case against the jointist was clearly proven. When it was given to the jury a constable was placed in charge of the 12 men. After supper the constable took the jury to a room and brought them a bucket of beer. During the night the jury kept balloting and drinking, the constable bringing them plenty of beer. In the morning the jury reported they could not reach a verdict. During the whole of the night the hall stood none but beer drinkers for a full three abstainers for conviction.

CENSUS OF CUBA.

President Sends a Proclamation to General Brooke at Havana.

WASHINGTON, Aug. 31.—President McKinley has sent to General Brooke at Havana the following proclamation:

The disorganized condition of your island resulting from the war and the absence of any generally recognized authority aside from the temporary military control of the United States, have made it necessary that the United States shall follow the restoration of order and peaceful government by giving its aid to the successive steps by which you will proceed to the establishment of an efficient system of self-government. As a preliminary step in the performance of this, I have directed that a census of the people of Cuba be taken and have appointed competent and disinterested people of Cuba as enumerators and supervisors. It is important for the proper arrangement of your new government that the information sought shall be fully and accurately given, and I request that by every means in your power you aid the officers appointed in the performance of their duties.

LAWS FOR PORTO RICO.

Insular Commission Submits Its Report to Secretary Root.

WASHINGTON, Aug. 31.—The insular commission, consisting of General Kenney, Judge Curtis and Major Watkins, which has given six months' study to the conditions of the island of Porto Rico, yesterday made its report to Secretary Root. It recommends a form of civil government of the island to take the place of the present military regime and submits for adoption a code of laws. These laws, it recommends, should be put in operation by executive decree, arguing that a congressional enactment of general laws would change the status of the island toward the United States and make it part of the constitutional territory of the United States. The code of laws and the civil government proposed do not give the Porto Ricans the franchise for any offices nor extend to them the privilege of trial by jury except in cases involving an amount in excess of \$500. It recommends that the military force remain in the island, but be kept in the background and touch the people only with a soft hand. English is to be made the official language of the island, but for the present all except the federal courts are to be conducted in Spanish.

TELLS OF FARMERS' TRUST.

Walter N. Allen, Promoter of the Scheme, Issues an Address, Giving Particulars.

TOPEKA, Aug. 31.—Walter N. Allen, president of the Farmers' Federation of the Mississippi Valley, has issued an address giving an explanation of the plan.

Much of the address is an appeal to the farmers to enter the combine and Mr. Allen argues that his scheme is the only salvation for the agriculturist and stock raiser.

"The banker, the manufacturer and the wage earner all have gone into trusts and each trust preys on the farmer," Allen says, "and we must fight the devil with fire."

It is proposed to save to the farmer the profits of middlemen.

In order that the business of concentration may be facilitated in the hands of the Farmers' Federation, it is provided by the bylaws that there may be issued \$10,000,000 of 5 per cent 20-year debenture bonds of the company to purchase the business and good will of the commission houses of Chicago, Kansas City, Omaha, St. Louis and New Orleans. There also may be issued \$10,000,000 of non-transferable 3 per cent 20-year bonds to the farmers at a discount of 25 cents on the dollar.

The committee appointed to devise a plan of observing Feb. 4, 1901, as "John Marshall day," reported and the report was adopted.

Telephone Kites and Numbers.

First.—To call give the crank one quick turn. This rings your bell and also signals the central office. Then immediately put the hand telephone to your ear. When the operator inquires "Number," give the number of the party you want, but not your own number unless the operator asks for it. The op. "or will instantly connect the wires and ring your party for you. Keep the telephone to your ear. If the party you want is in he will answer the operator without your ringing. Do not ring back. If the operator calls to at any time answer her, to prevent disconnection. When through give a short ring to disconnect.

Second.—When called do not ring back, but at once put the telephone to your ear and talk.

Third.—If after you have called, the operator says "busy," it means that the party called for is connected with some one else. Wait a few minutes and call again.

Fourth.—Never ring the bell except to call central or to disconnect.

Fifth.—Avoid loud and boisterous conversation. Speak in your natural tone and close to the transmitter.

Sixth.—When not in use, always hang the hand telephone on its hook, large end down, otherwise your telephone will "talk" well.

Seventh.—Do not use your telephone during a thunder storm.

Hearn in a Brazilian Balm circular. Hearn was the engineer on my train and I knew his case was desperate. I talked with Hearn and his cure gave me hope. I began the use of the Balm at once. There was not much change for the first two months but then I began to improve and in six months, to my inexpressible satisfaction, I was entirely cured."

Grippe Cured.

"Last winter I had a bad cold and severe cough. I was lame in every joint and muscle. I was sick and felt as though I was coming down with typhoid fever. It was no doubt a bad case of grippe. Mr. E. P. Budge gave me a bottle of Brazilian Balm, saying he was sure it would help me. The relief was almost instantaneous. It stopped my cough and took the pain with all the pains and soreness on my system. I gave the balance of the 50-cent bottle to Mrs. Bishop Wiley for her daughter. It proved so beneficial she says she never intends to be without it."—Edwin Fitz Jones, Cincinnati, Ohio.

Pneumonia Cured.

Mrs. A. J. Lawrence, of Beaver, Pa., says: "Brazilian Balm brought me out of a severe attack of pneumonia in splendid shape. It is a wonderful remedy for coughs and lung troubles. Also, for outward use, for burns, cold-sores, and chapped hands and face, it cures like magic. It is invaluable in the family."
